## Frolicking February

Looking back on the month of February, we had rides from Beaker, Spindles, Schlong, and to round it off we had the first instalment of a Sports Evening. For Beakers excursion we ventured up Turners, Spindles took us for a spin up Ochrywth round the woods and up the mast and Schlong's ride took use around Rudry and the Ridgeway in Schlongtastically wet riding conditions.

The first Sport Evening was a wet one with the Captain selecting his car as the preferred mode of transport due to the wet condition – instead of single-track perhaps we should concentrate on motorways? After a wet start was a mixture of mass and single starts for everyone climaxing in a race to the finish to the TA trying to match Captains and vice's riding time. After a recount the winners were announced as Spindles and Kev da plane da plane – well done both.

The police have asked me not to release the photo of Gordon for fear of reprisal attacks.
